- PRESS RELEASE -

## Lande introduces Lande Phi at ORGATEC 2018

**Schijndel, October 2018 – Lande will present Lande Phi at ORGATEC 2018, a measurement based on relationships and principles as found in nature. We applied this measurement to our latest designs to create a modular collection that seamlessly interconnects different programmes and products.**

### Lande Phi

We developed Lande Phi to help you create a work environment that easily moulds itself to the needs of your organization. The Lande Phi measurement will increasingly be used in our collections. We will present the following programmes from the Lande Phi collection at ORGATEC 2018:

- Flatlands: a modular sofa system with clear, sleek lines
- Rondo: a modular acoustic workspace zoning system consisting of various concentration units
- Fundamentals: a modular wardrobe system with striking design details
- Dock: a long and stylish wooden table with an upper and lower steel frame

### Modular

Younger generations want more and more flexibility in the way they work, especially now that we communicate and work together in a different way. As a result, today's work environment is constantly changing. The Lande Phi collection makes it easy to create a custom work environment with furniture pieces with complementary dimensions. This modular collection is also the perfect stepping stone to the sustainable design of the future.

### About Lande

Lande designs and manufactures furniture that inspires creativity and productivity in modern work environments and meeting places. Lande has a broad range of products for various spaces, such as quiet work rooms, brainstorming rooms, and modern boardrooms. The entire process, from development to delivery, is handled in-house.
