## Lande presents Dock counter table at Design District 2019

Schijndel, June 2019 - Lande presents the Dock counter table at Design District 2019 in Rotterdam. The Dock counter table is a stylish long wooden table of 90 cm high with a steel frame that continues above the table. Several lamps or hanging plants can be attached to the frame. The combination of the frame and the lamps or plants above the table creates an intimate atmosphere. The Dock counter table of designer Kurt Van Overbeke, will be presented from 5 to 7 June at the Lande stand V80 of Design District.

### High version of the Dock

The Dock counter table is the high version of the Dock table. Ideal in a commercial building or public space where no lamps can or may be attached to the ceiling. Or in a high industrial space where the lighting is not sufficient. The Dock counter table is ideal as a reading table or a landing table in an office or library, for example with height-adjustable bar stools. With the Dock and the decoration of lamps or hanging plants you immediately create an intimate, cozy atmosphere.

### Inspired by a jetty

The first stylish Dock tables are already in use in the offices of the Antwerp Port House. "As the name suggests, the table is inspired by a jetty", explains designer Kurt van Overbeke. "Dock is designed for the Port House in Antwerp. This company is responsible for mooring boats from all over the world. Mooring is also the function that the Dock table has within the office. A place where people come to for a brief consultations. "

The frame and the lamps above the table create an intimate atmosphere at the Dock. Van Overbeke: "In addition, the lighting cables also refer to the ropes on a dock to secure boats."

## Two sizes

The Dock countertable is available in two different sizes. The table top is 1 meter widths and for the length can be chosen from 3.2 or 4 meters. The frame can be powder coated in different colors and the table top can be selected from different top layers.

## About Kurt Van Overbeke

Belgian designer Kurt Van Overbeke studied Interior Design at Sint-Lucas in Ghent. He mainly works on office projects in which the new way of working is explicitly present. Optimizing the spatial experience is essential for Van Overbeke. With that in mind, he also designed the Dock. In addition to designing furniture and interiors. In his work he goes in search of a refined form language that still manages to surprise.

## Tearoom of the Van Nelle Factory

Lande presents the Dock countertable during Design District 2019 in the Tearoom of the Van Nelle Fabriek. This unique stand (V80) can be reached via a lift or stairs. In addition to a delicious drink and our furniture, you will find plenty of information about the architectural highlights of Rotterdam on our stand. Moreover, at Design District we work together with Interstuhl, which will also show their latest models. In addition, Interface will show various floors on our stand and the stand will be decorated with various Feltplants by Wandschappen.

## About Lande

Lande designs and produces furniture for modern work environments and meeting places that stimulate creativity and productivity. Lande has a wide collection of furniture for various spaces such as concentration of workplaces, a brainstorming room or a modern boardroom. The entire process from development to delivery to the end user is carried out in-house.

Lande is part of Lande Group from Schijndel. Lande Group is a family business in the furniture industry. Lande Group designs, produces and sells furniture for four strong brands: Artifort, Lande, Pörtner and Zwaardvis.
